PROFESSIONAL SUMMARY

Full-Stack Developer and B.Tech CSE student with hands-on experience architecting and deploying production-grade web applications using React.js, Next.js, Node.js, and MongoDB. Demonstrated ability to deliver end-to-end solutions — from RESTful API design and JWT authentication to responsive UI development and CI/CD deployment — with a strong foundation in Data Structures & Algorithms (200+ LeetCode problems) and a proven record of academic excellence (96.6%, UP Board Rank 7th in Uttar Pradesh).

EDUCATION

Ajay Kumar Garg Engineering College

Sep 2024 – May 2028

B.Tech in Computer Science Engineering | Ghaziabad, U.P.

V.I.P. Inter College

Apr 2020 – Apr 2024

Senior Secondary (96.6%, Class XII) | Secondary (91.5%, Class X) — UP Board | Hapur, U.P.

PROJECTS

The Multiverse Classes – Full Stack Web Application

Freelance Project

Next.js · TypeScript · MongoDB · NextAuth · Tailwind CSS · Vercel

Live: themultiverseclasses-tan.vercel.app

- Designed and developed a full-stack coaching institute management portal from scratch as a freelance project, serving as the sole developer across frontend, backend, and deployment.
- Built a role-based authentication system with separate Admin and Student portals using NextAuth v5 with JWT strategy, protecting 10+ API routes with server-side session validation.
- Developed an automated fee tracking system with monthly cron jobs (Vercel Cron) that auto-generates fee records, triggers email notifications via Resend API, and produces downloadable PDF receipts using pdf-lib.
- Engineered RESTful API routes in Next.js App Router covering full CRUD operations for students, fee records, notifications, and receipt generation with MongoDB Atlas and Mongoose.
- Implemented a mobile-first responsive UI with Tailwind CSS featuring separate navigation for mobile (bottom tab bar) and desktop (sidebar); architected a multi-model MongoDB schema with four collections and compound indexes for efficient lookups; deployed on Vercel with CI/CD via GitHub.

PrepVerse – Full Stack Interview Preparation Platform

Jan 2026 – Present

React.js, Vite, Tailwind CSS, Framer Motion, Node.js, Express.js, MongoDB, JWT | Vercel + Render

Live: prepverse-seven.vercel.app

- Architected a production-grade full-stack platform (20+ pages) featuring DSA practice, AI mock interviews, recruiter connect, resume builder, roadmap tracker, leaderboard, and a social feed.
- Developed RESTful APIs with Node.js + Express.js, MongoDB, and JWT auth; deployed frontend on Vercel and backend on Render with GitHub CI/CD integration.
- Built an AI mock interview module with a rule-based scoring engine (answer depth + difficulty weighting) and an analytics dashboard powered by Recharts and Framer Motion.

Personal Portfolio – Developer Showcase

Mar 2026 – Present

Next.js 14, TypeScript, Tailwind CSS, Framer Motion | Vercel

Live: portfolio-jet-beta-0fuogetmv1.vercel.app

- Built a type-safe, SSR portfolio with Next.js 14 App Router and TypeScript, achieving 98+ Lighthouse performance score via image optimization and code splitting.
- Implemented SEO best practices (Open Graph, sitemap, structured data) and a serverless contact form via Next.js API Routes — zero backend dependency, deployed on Vercel.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, C, HTML5, CSS3

Frontend: React.js, Next.js 14, Tailwind CSS, Framer Motion, React Router DOM, Recharts, Vite

Backend / DB: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT Authentication

Tools: Git, GitHub, Vercel, Render, VS Code, IntelliJ IDEA

Core Subjects: Data Structures & Algorithms, Object-Oriented Programming (Java), Operating Systems

ACHIEVEMENTS & CERTIFICATIONS

- Ranked **7th in Uttar Pradesh** in Class XII UP Board (96.6%) among ~2.5 million students; **1st in Hapur district** (~17,000 students).
- Qualified **JEE Mains** with **93.75 percentile** — above the national cutoff for top engineering institutions.
- Solved **200+ DSA problems** on LeetCode across arrays, trees, graphs, and dynamic programming.
- Frontend Developer — **Build With Trae Hackathon 2026** (JanSahayak).
- Completed **Data AI & Machine Learning with Python** — Froyo Technologies.
